

**February 2021**

Dear McLean Family Members,

“For there is always light. If only we’re brave enough to see it. If only we’re brave enough to be it.”

The above words were so eloquently spoken by Amanda Gorman, a young poet, on the occasion of President Joseph Biden’s inauguration on January 20, 2021. They hold so much meaning here for all of us at McLean. Each and every one of our brave staff members have been the light for each other and for our residents. Our residents in turn, have been the light for us, showing us by their strength and resolution how to survive and thrive during this pandemic chapter. We have all learned so very much, and are now filled with hope and promise as we receive our vaccinations.

Our community continues to be blessed from the support and care of outside community groups. From local school children, community church groups and area colleges, we are so very thankful for the gestures of kindness and care being sent our way.

As we approach a year anniversary of battling this COVID-19 pandemic, we are so thankful to you, our families. You, too, are a light for all of us with your continued support and encouragement sent our way. We are available to you at any time should you have any questions or concerns.
