

December 2018

Happy Holidays to All of Our McLean Family!

“The best and most beautiful things in the world cannot be seen or even touched. They must be felt with the heart. Wishing you happiness.” -- Helen Keller

The month of December is an especially warm and inviting month to be a member of the McLean community! With our annual craft fair kicking off the season, trees put up and decorated, extra visitors coming in, gifts being bought, cookies being eaten and music of the season at every turn, it is indeed an experience you can feel in your heart! We are so glad that you are here and hope you are able to take part in many of our events and activities.

It has been a banner year for McLean with reasons to celebrate. We were just recognized by US World & News Report as 2018-2019 Best Nursing Homes, being listed in the top 19% in the country. Our Home Care and Hospice Agency was recognized by Home Care Elite to be in the Top 500. None of this would have been possible without our outstanding staff! Dedicated to the highest quality of care, their efforts on behalf of our residents are so very appreciated.

Again, best wishes for the New Year. As always our doors are open to you at all times.
