

New fund at MCCF to benefit Autism Program at Ancilla

The Autism Program at Ancilla College (APAC) will be launching for students in August of 2017 and applications are being taken now. The program is designed to expand students' educational, vocational, and career opportunities while enhancing social and community engagement. APAC will strive to accentuate each student's abilities within the social, emotional, and independent-living domains, while building their academic skills and knowledge.

We have established a new fund at the Marshall County Community Foundation to support this important program, and on May 25th, the MCCF is offering a 10% match on donations made to this fund. Our goal is to raise \$5,000 by May 25, 2017 in order to receive the matching gifts (the first donation of \$500 was made last week).

Will you consider a gift of \$25, \$50 or even \$100 or more to help us reach our goal of \$5,000 by May 25th?

If so, please make your check payable to the Marshall County Community Foundation, date it May 25, 2017 to enable your gift to receive the 10% match, include APAC fund in the memo section of your check and mail it to:

Marshall County Community Foundation
