Join us for our in-person meeting

## BAR AND LEGISLATION UPDATE 2021

with speaker

**Matthew Gibson, Bureau of Automotive Repair  
one of the top BAR officials in Sacramento**

### CHANGES ARE COMING!

Matt Gibson from the BAR updates us on what's coming. BAR will be able to issue a citation (up to \$5,000) if an auto body shop does not perform repairs following OEM service specifications or generally accepted repair standards - this includes diagnostics, scans and calibrations! Eg: , if an OE recommends pre and post scan safety calibration procedures and the auto body shop does not perform, BAR may issue a citation.

**Make sure you stay one step ahead  
BY ATTENDING THIS MEETING!**
