

SchoolMessenger solutions enable students, parents, staff and the broader community to stay up-to-date!

SCHOOLMESSENGER

Download this light blue icon from your app store or sign up at go.schoolmessenger.com.

Who should use this app?

Currently-enrolled students and their parents/guardians. An email address/password is required to create an account. See complete instructions to get started at www.forestcity.k12.ia.us.

What is SchoolMessenger?

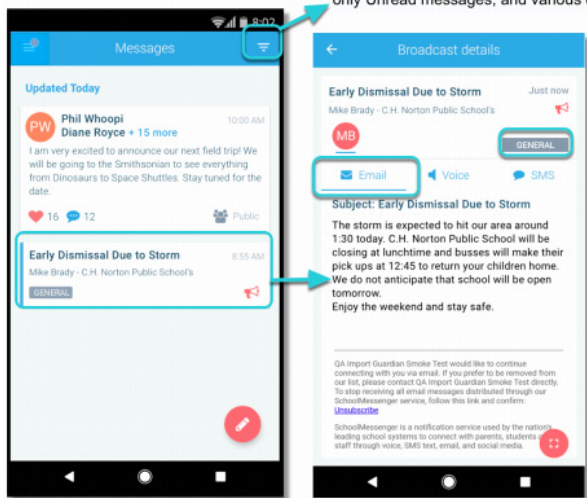

SchoolMessenger is a communication system used by FCCSD to distribute important school-related messages **associated with a student**. Messages are customized according to each student's school building, classes, and activities/sports.

What type of messages will be distributed?

Administrators will send weather-related, district and school-specific announcements. Teachers may send classroom and or class-specific announcements. Coaches and activity leaders can communicate with students and parents.

How will I receive these messages?

Messages are delivered to the app and may also be sent via email, text, a phone call or a combination of these depending on the type of message and the preferences you set in the app. Text Y to 67587 to authorize the district to send text messages.

Messages can be filtered to display all messages, only Unread messages, and various other categories.

FOREST CITY CSD APP

Search for Forest City CSD in your app store

Who should use this app?

Anyone can download this app! There is no user name or password required.

What is the Forest City CSD app?

This app operates like a mobile website and enables parents, staff, students and the broader community to stay informed on important issues, information and activities underway within the school community. You will have 24/7/365 and one-click access to the school calendar, lunch menus, announcements and more. School-related programs and apps can be launched from this app — **putting everything you need to stay connected into one place!**

Will I receive notifications?

Yes! This is also a SchoolMessenger product so notifications, like no-school days or activity postponements, will be delivered to this app.

I'm a current student/parent. Do I need both?

Yes! SchoolMessenger is a communication app and this is a mobile website. The only duplication is that you may receive major messages both as a message in SchoolMessenger and as a notification to this app.
