

Population Health Research Symposium 2019

CALL FOR ABSTRACTS

Dear Colleague,

We are excited to announce that abstract submissions for **poster and podium sessions** at the annual **Population Health Research Symposium**, co-sponsored by [Partners Population Health](#) and the [Mongan Institute](#), are now being accepted.

- June 10, 2019 at Assembly Row, 8:00 am – 2:45pm
- Featuring **keynotes** from [Steve Bartels](#), MD, MS, Director of the Mongan Institute at MGH and [Tracy A. Lieu](#), MD, MPH, Director of the Division of Research at Kaiser Permanente Northern California
- **Breakout sessions** featuring small groups and workshops on care transformation research, unique data assets within Partners HealthCare, operationalizing care management programs and opportunities for collaboration
- Lunchtime **poster session**
- **Networking** with operational leaders, clinical innovators, and researchers

The symposium **audience** will include the research community from across the Partners HealthCare system as well as clinical and operational leaders in Population Health, and national experts on care transformation. Past symposia have served as forums for networking and sharing lessons-learned in population health across the system. This year will focus on building productive collaborations between the research community and Partners Population Health.

Abstracts summarizing observational or interventional investigations of patient populations or health care delivery approaches are of interest. Poster and podium presentations will highlight research that will inform improvements in care delivery and is of relevance to an integrated delivery organization actively seeking to improve population health. Applied research, including both prospective and retrospective studies of Partners patients, providers or innovations are particularly appropriate.

We **encourage you to submit** an abstract using this [electronic submission form](#).

The abstract submission deadline is **5:00 PM on Monday, April 22, 2019**; selected participants will be notified by Friday, May 10, 2019. The podium presentations will be determined based on the abstract score.

Please email [Mike Vetter](#) with questions or to request more information.
