NCA Membership Frequently Asked Questions

Who are NCA Members?

Membership is open to everyone including professionals working as family home child care providers, child care center and afterschool program staff or those at Tribal Nations, State Agencies, anti-hunger organizations, Head Start, emergency shelters, schools, food banks, associations, universities, Research and Referral agencies, commercial and sponsoring organizations.

What's the best membership for me?

The \$75 NCA Membership is a great choice for anyone who wants access to NCA Membership benefits.

For CACFP Sponsoring Organizations who would like to have one listing in Find A Sponsor at cacfp.org, receive a discount on bulk printed materials, have access to program referrals, Board of Directors leadership opportunities, voting rights, and access to the Sponsorlink community, we recommend the \$150 Sponsoring Organization membership which includes one NCA Membership. If you have additional staff who would like access to membership benefits, you can add people from your organization at \$75 each or you can choose the \$450 five-person membership package.

What is a CACFP Sponsoring Organization?

Organizations that assume the CACFP administrative and financial responsibility for child care programs under an agreement with their state agency are considered CACFP Sponsoring Organizations. These may be organizations who work with a number of providers including family home child care, child care centers, Head Start, or at-risk afterschool sites. They may also be an independent child care center which serves as both sponsor and provider—acting as their own sponsor.

How do I get access to Sponsorlink?

The Sponsoring Organization primary member will be enrolled in Sponsorlink automatically. Additional team members holding membership may request access.

What if I have a Sponsoring Organization that serves multiple states?

Sponsoring Organizations may hold multiple memberships. We recommend one Sponsoring Organization membership for each state you serve. This will make it possible for the Sponsoring Organization to have a listing on the Find A Sponsor directory for each state and assign a primary member for each state who will hold the NCA Membership. Sponsoring Organization benefits such as leadership opportunities and voting rights extend to each state membership.

Can I share my log in with my team?

Each person will need a membership to register for member webinars, access educational materials or qualify for conference discounts.

Can my membership be transferred?

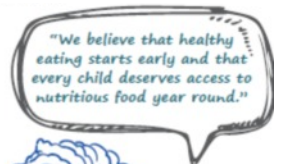

Memberships are non-transferable except in the case where the primary member of a Sponsoring Organization retires or leaves employment.

Can I change my membership status at any time?

Yes, an active NCA Member who works for a Sponsoring Organization may upgrade their membership for additional sponsoring organization benefits.

Can my membership be renewed automatically?

We hope to have that option available next year. At this time, membership must be renewed by the member directly.
