

## TIPS TO PROTECT YOUR PACKAGES FROM THEFT

Don't be an easy target for thieves that scour front doors for deliveries!

Arrange for delivery when you expect to be home.

Install a camera system to help identify thieves.

Have your high dollar items sent to your place of business.

Have package shipped to a neighbor that will be home.

Leave a note for the mail carrier to leave your package at the post office.

Alert the mail carrier beforehand of any special instructions (i.e. leaving the package in an inconspicuous spot)

Opt for signature confirmation for delivery of packages.

Have your items sent to a store where you can pick them up at your leisure
