

MADE IN USA

A manufacturer's products reflect the entirety of the company behind them. At Faribault Mill, warmth, quality, and resilience describe both our amazing people and the exceptional products we make. Since 1865, Faribault Mill has been a testament to the staying power and enduring quality of American manufacturing.

With over 150 years of textile experience, our products proudly continue to pass the test of time. Generational craftsmanship and a constant refinement of our techniques, combined with the loyalty and support of our valued customers, have allowed us to carry on our legacy and continue weaving our story into American history.

MADE TO LAST

For every bed blanket sold, Faribault Mill will donate a woolen blanket to nonprofits dedicated to serving youth experiencing homelessness in cities across our country.

WHEN YOU BUY A BLANKET, WE GIVE A BLANKET
