ATLANTA, GA (November 15, 2022) - The Association for Commuter Transportation (ACT) celebrated the announcement of the 2022 40 Under 40 recipients at the organization's annual TDM Forum, which took place in Atlanta. Celebrating the accomplishments of an astounding group of Transportation Demand Management (TDM) professionals and leaders, the awardees represent a particularly diverse and accomplished cross-section of the industry, including private sector employers, city and state governments, service providers, consultants, and nonprofits committed to solving the transportation and mobility challenges facing their communities and organizations.

"These exceptional leaders are pushing the boundaries of TDM from all directions. They are changing the lives of commuters and furthering sustainability initiatives and it's so fulfilling to recognize them in person. I look forward to the bright multi-modal future that this next generation of TDM professionals is ushering us toward," said ACT Executive Director David Straus.

**Brandan Stuckey, Marketing and Outreach Manager at Bethesda Transportation Solutions (BTS) is one of the 40 award recipients. Brandan has exhibited outstanding outreach skills since he started at BTS in 2019. He is actively involved with employers, business networking groups and government leadership organizations to foster vibrant and productive partnerships with a focus on transportation demand management in downtown Bethesda.**

**"The fact that I was honored as Top 40 Under 40 in my field makes me reflect on all of the hard work and effort it takes to service the needs of our region," said awardee Stuckey.**

**"I'm grateful for the team around me for providing the space necessary to be as innovative and creative to service the needs of clients in an ever-changing environment. This award means a lot to me as we continue this journey of making a better commute for a better Bethesda."**

"Seeing the next generation of TDM professionals step up and command the spotlight is always a joy to witness," said ACT President Connie McGee. "This year's recipients are working for the good of their communities and are carving a path towards a brighter more sustainable and equitable future for us all. I'm so excited for this year's recipients and eagerly await their next steps. Congratulations to the recipients once again!"

ACT recognized its 2022 40 Under 40 TDM Professionals in person with a ceremony sponsored by Commutifi at the Starling Hotel. Attendees of the 2022 TDM Forum gathered to celebrate this remarkable group of emerging leaders.

#### ABOUT ACT

The Association for Commuter Transportation is the premier organization and leading advocate for commuter transportation and transportation demand management (TDM) professionals. ACT strives to create an efficient multimodal transportation system by empowering the people, places, and organizations working to advance TDM in order to improve the quality of life of commuters, enhance the livability of communities, and stimulate economic activity.

###

#### ABOUT BTS

Bethesda Transportation Solutions (BTS), a division of the Bethesda Urban Partnership (BUP), operates the non-profit Bethesda Transportation Management District under a contract with the Montgomery County Department of Transportation in downtown Bethesda, Maryland. The mission of BTS is to manage traffic congestion, support alternatives to driving alone, reduce air and noise pollution and promote bicycle and pedestrian access and safety.
