“ABCD”?

Asset-Based Community Development...

is an approach to community organizing that begins  
with a core belief:

“Great neighbors make neighborhoods great!”

and a shift:

from “relief” to “development”

from “I’m here to fix it...”

to “let’s work together with what you  
already have!”

it depends on:

community listening!

celebrating the community’s diverse assets!

forging durable partnerships!

making a difference!

A “Conversation” offered by San Antonio’s Faith-Based Initiative
