

Introduction & Instructions

Welcome to the Health Disparity Reduction Tool.

The purpose of this tool is to support you as you incorporate health disparity reduction into your division or program. This tool will guide you as you consider the potential impacts of programs, plans, services, events, strategies, media, surveys, or trainings.

To use the Health Disparity Reduction Tool, answer each question about potential impacts. Take time to think carefully through each question. After the survey, review your results and consider how you could improve your program, plan, event, media, or training.

Block 2
