

Are you interested in Virtual Reality Training? Would you like free material for your labs?

If you answered yes to these questions, we have a deal for you!!

For a limited time, when you sign up your students for the Virtual Reality training course *Virtual Reality, Branch Circuit Wiring*, you can receive free content for your classroom labs. This offer will allow your students to come to the lab prepared for the hands-on experience and let your training center obtain the needed materials to have labs that reinforce the learning content in the virtual reality experience. The more students you enroll in the virtual reality course, the more money you will receive to equip your labs. For more information on the program, see the attached flyer.

- For additional information on virtual reality training, visit the Instructor Portal to read this [blog post about virtual reality](#).
- For more information on how to get started at your local training center, visit the [Virtual Reality Resources page](#).
- To register to receive the free material, click [here](#).

Quality Hands-On Lab Supplies from IDEAL

IDEAL Electrical has the products you need in the classroom to train future electricians – products for Cutting, Stripping, Pulling, Testing & Terminating. . . you get the idea. IDEAL has the “must have” tools and supplies to get the job done right.

What is Virtual Electrical Training?

VET is a series of **virtual reality lessons** for electrical apprentices. Developed in collaboration with professional journeymen, VET lessons allow students to practice electrical installations and wiring in a safe, immersive environment.
