

Building Knowledge One Element at a Time

Our Mission:

Project Atom is an initiative focused on giving free educational resources. The effort is to expand each student's knowledge and interest beyond the traditional bounds of the classroom. Through creative application and our advanced curriculum, we hope to help diminish the gender gap in STEAM (Science, Technology, Engineering, Art, and Mathematics) careers and allow underrepresented backgrounds to thrive in such educational opportunities.

The Curriculum:

Science: Biology, Physics, Chemistry, Astronomy, Math

Humanities: Philosophy, Writing Seminar, Government, Art

College Prep Activities: Advising, Support, Essay Help, SAT/ACT

Sample Activities:

- Watch how everything you've learned in the classroom applies to the real world
- Interactive activities such as Model UN, crime busters, and exciting science labs
- Star Watching Parties through a telescope with fun games!
- Learn from college students at top universities and create lasting friendships!

Meetings:

- Two week long (Monday to Friday, **July 12th – 23rd**, from 9:30am – 2pm) immersive, **fun** experience for K through 12 grades.
- World Relief Garden Grove's office:
13121 Brookhurst St, Garden Grove, CA 92843
Project Atom is not responsible for transportation of students.
- Snacks and meals will be provided (kosher and halal)

How to Sign Up:

- Click the following link and submit the required information:
<http://bit.ly/projectatomcontact>
- Also, make sure to complete the following bio/health questionnaire (<http://bit.ly/bioandhealth>) and e-mail it to jserrano@wr.org.
- If you have any questions, give us a call at tel. (714) 210.4730 (ext. 109, Monday – Thursday) or send us an e-mail at the email provided above.
