

# Young Innovators Camp

Future Design School provides world-class education programs that empower student creativity. The Young Innovators Camp inspires students to harness technology to address meaningful issues in the real world.

## Overview

Students in the Young Innovators Program build their own solutions to real-world issues, learning a repeatable process of ideation, validation and rapid prototyping. Fueled by passionate facilitators and featuring powerful insights from leading entrepreneurs, the experience is truly transformative. The program is modular by design to enable flexibility.

The camp takes 30-35 hours to complete, and can be run as 5 full days or 10 half days

Students in the Young Innovators program are guided through a repeatable process for designing creative solutions to real world problems that results in measurable growth in:

### CRITICAL THINKING

Students make decisions based on data, logic and criteria; ask good questions to advance thinking; and show resolve and resilience in decision making

### CREATIVITY

Students share their ideas with real users, learning effective oral, written, media-based communication to articulate ideas for a specific audience.

### COLLABORATION

Students work with peers and adults to develop interpersonal skills, contribute to a team and learn to work with people of various skill and personality types.

### COMMUNICATION

Students learn a process for producing new and unique ideas; make connections between seemingly different ideas; and take risks with newfound confidence.

## Bring Young Innovators to your school!

We are looking for forward-thinking schools and innovative teachers to inspire youth. School Partners provide space for 15-20 students for one week, a projector and an iPad for the teacher.

Future Design School provides everything else you need to bring an incredible camp program to your community.

## ALL SCHOOL PARTNERS RECEIVE

- ✓ A trained facilitator/certified teacher to run the camp (paid by FDS) This can potentially be one of your in house teachers!
- ✓ All program materials, including teacher access to the Young Innovators App during camp
- ✓ Promotion of the camp through our website and marketing materials
- ✓ The opportunity to position your school as a thought leader in the designing the future of education and empowering youth entrepreneurship in your community.
