Team A News

MARCH 12, 2020

Phew!

Can you join us in taking a deep breath and thanking God for our children, our school community and God's great wisdom he shares so abundantly? The Team A teachers are thankful to God for his continued wisdom and discernment as we lead your precious students to finish Term 3 well.

Over the past few weeks, we have covered Stg. Stubby, Walt Disney and the Titanic as our "Friends from the Past". These people and moments in history have led many class discussions (including looking up scripture to show us some of God's unchanging promises) to think about how God can use the bad for our good and His glory. The children have been so excited to learn about the changes that have taken place because of the boldness and bravery of individuals, as well as society.

We can also say that we're ready for spring! This past week, 2nd grade was able to take some extra time outside to navigate, measure and map out the HCA field. Kindergarten and 2nd grade were able to begin cleaning out our garden beds. If you have any gardening expertise or advice, please reach out to us as we begin to plan our garden beds in the upcoming weeks. Thank you for your continued support in keeping Team A, and the rest of the staff and students at HCA safe, wanted and loved. We sincerely appreciate your support!
