A new beginning:

Since 1991, SportsWare™ has been the leading injury tracking software in High School and College Sports athletics programs. Athletic Trainers rely on SportsWare to record, manage, and report their athletic training room information.

With our long history in this field, we wanted to give something back and are announcing SportsWare Desktop at no charge.

The screenshot shows the SportsWare Desktop application window. The title bar reads "SportsWare DeskTop v15.00.0000 - [Athlete]". The menu bar includes File, Edit, Database, View, Report, e-Mail, Lists, Utilities, Task List, Dashboard, and Help. The toolbar has buttons for Show All, Search, Sport, Group, and Date. The main area is a database grid with columns: Full Name, ID, Sport1, Sport2, Sport3, Group, Graduating, and Active. The grid contains five rows of data. To the left is a vertical toolbar with icons for Athlete, Injury, Treatment, Medication, Sign-Out, Billing, Concussion, Phone, and Status. At the bottom left is a "Report" button. On the right is a vertical toolbar with icons for Add, Edit, Delete, Duplicate, Print, Refresh, Task, and Help. The status bar at the bottom shows the path "C:\Users\Public\Documents\CSMi\SportsWare\Database\SportsWare.mdb".
