SportsWareOnLine Datalys Jumpstart Program

Many of our clients are required to participate in the NCAA's Datalys Injury Surveillance Program. With SportsWareOnLine you can now export data directly to Datalys with the click of a button. SportsWare automatically anonymizes the data, formats it, and send the results to Datalys. This eliminates the need for you to perform an export, format the data, and e-mail the results to Datalys. The best part is that this capability is included in your SportsWareOnLine subscription.

STEP	INSTRUCTIONS	PICTURE
