## SportsWareOnLine Single Sign On (SSO) Feature

CSMi is pleased to announce the addition of the Single Sign On feature. Single Sign On allows institutions to maintain login credentials (e.g. Username and Password) on their own login authentication system. You have probably seen Single Sign On solutions when websites give you the option of logging-in with your Facebook or Google account. With SportsWare we are allowing you to login through your institution account.

The advantages to Single Sign On include:

1. The institution has complete control over the login requirements (password length, expiration, complexity, reuse, security questions, text confirmation).
2. The institution can control user access to all applications used by the institution through their single login system.

## Logging-in To SportsWare With Single-Sign On

<p>In the <b>SIGN IN WITH YOUR ORGANIZATION</b> area, click the <b>LOGIN</b> button. <i><b>Note:</b> The participant list below the LOGIN button shows schools currently registered with SportsWareOnLine for Single Sign On. See below for information on registering with CSMi.</i></p>	
<p>From the <b>SELECT YOUR IDENTITY PROVIDER</b> screen, select your school's name and click the <b>SELECT</b> button.</p>	
<p>The login will proceed to your school's login page. Enter your <b>USERNAME</b> and <b>PASSWORD</b> and click the <b>LOGIN</b> button.</p>	

Your browser will proceed to your SportsWareOnLine Dashboard.

## Implementing Single Sign On At Your Institution

CSMi supports SAML 2.0 authentication. When using the Single Sign On feature, users and athletes are re-directed to the institution's login page for authentication. Upon successful authentication on the institution's system, the user/athlete is automatically logged-in to SportsWare.

The advantages to this solution include:

1. The institution can control the login/authentication methods, including the use of two-factor authentication, text message verification, and secret questions.
2. If an institution utilizes multiple applications, they can revoke a user or athlete's privileges from their single login site.

## Institutions Which Are InCommon Participants

CSMi can obtain the institution's reference information from the InCommon server.

**Note:** To find out if your institution is a member of InCommon, go to the InCommon website <https://www.incommon.org/> and click the Participants link at the top of the page.

## Institutions Which Are Not InCommon Participants

CSMi can obtain a institution's reference information from their IT group.

## To Utilize Single Sign On With SportsWare

If you are interested in moving forward with Single Sign On, have your IT department contact us so we can discuss the implementation with them.
