

Ohio START Parent Follow-Up Survey Information

Researchers at Ohio University are conducting a new follow-up survey to hear directly from parent graduates of Ohio START who completed the model 6-18 months ago. The goal of this survey is to understand parents' experiences and perspectives, including:

- What aspects of the Ohio START model most contributed to their long-term sobriety and recovery
- Any sustained changes in their parenting practices

How This Helps

The findings will be shared with Ohio START administrators to help improve and strengthen future programming for families.

Key Information for Participants

- Participation is voluntary, and parents may stop the survey at any time without penalty.
- Confidentiality: Responses will remain anonymous.
- Incentive: Participants will receive a $25 Amazon eGift card as a thank you.
- After completing the survey, participants will be guided to a separate, secure survey to provide contact information for gift card distribution.
- Ohio START participation will be verified before gift cards are issued.

How You Can Help

- Share the attached survey flier with parents who may be eligible.
- Encourage parents to text 740-486-0065 to learn more or participate.
- Spread the word among your colleagues and networks to maximize outreach.

Survey Details

Who: Parent graduates of Ohio START (6-18 months post-graduation)
Time: Approximately 15-20 minutes to complete
Language: English
When: Open now through April 1st
How: Parents can text 740-486-0065
