## Basic Quilting Class

Carol Logue

carolkwilts@aol.com

carolkwilts.blogspot.com

Basic quilting class is a beginner's class:

How to use     Rotary Cutters  
                  Squaring up fabric  
                  Making Templates  
                  Making blocks with & without templates  
                  Piecing  
                  Borders  
                  Putting the Quilt together  
                  Quilting  
                  Binding

You can make a 4 block wall hanging or a table runner unfinished block size is 12-1/2"

### Supply List:

- Sewing machine
- 1/4" foot
- Walking foot
- Darning foot
- Rotary cutter & mat
- Rulers:
- 6" x 24"
- 12-1/2" square up
- Straight pins
- Safety pins
- Kwik klip
- Marking pencils or pens to mark quilt top for quilting
- Template plastic
- Template marking pencil
- Neutral thread 100% cotton or poly covered cotton
- Invisible thread clear or smoke (Sulky)

### \*Fabric:

- Scraps of fabric for making 4 (12-1/2") blocks or 4 or 5 different color fat quarters
- Backing Fabric can be muslin if you prefer, a new quilter might want a busy print, will determine the yardage when the top is complete (about 2 yds.)
- Sashing fabric 1 yd.
- Cornerstone fabric Fat 1/8's
- Border fabric 1-1/2 yds.
- Binding fabric 3/8 yd.
- Batting I prefer warm & white or warm & natural for machine quilting (same yardage as backing)

\*Note these yardage figures are approximate and reflect very little margin for error...if in doubt go up 1/4 yd. in cornerstones, 1/2 yd. in sashing, 1/2 yd. in binding 1/2 yd. in border

Personally I always purchase more fabric than I think I'll need for a project and I prefer the flexibility of having too much versus not enough...just in case I change my mind mid way through the project...which I've been known to do...
