#### PROGRAM HIGHLIGHT— WIOA:

Anthony Negani is the program manager for the WIOA program that assists both adults and youth who strive for independence in employment and education. The program helps those who eligible and want to succeed. Currently, there is around 35 youth and 12 adults being assisted. In addition, there are nine (9) students (between the grades of (7th—9th) in a computer building class. The class is helping these children with learning patience, responsibility, and bonding between peers. Our tribal children are learning to build a computer and a 3D printer from the bottom up. In the end, they get to keep what they built. The students can take pride in their accomplishment. If you have any questions regarding the WIOA program, please call the office at 715-588-4228 to speak with Anthony.

### Community Outreach:

We want to acknowledge someone in the community, adult or child, on their commitment, passion, strength, and dedication they have to our community. This month we are acknowledging:

*Shane Deverney*

Shane is being recognized by the office for his hard work ridding the community of the trash on the trails. He has spent numerous hours, used many garbage bags, and lots of walking later to make sure our community is clean and rid of garbage. He also is very helping to his neighbors and does a great job at the store as well. Thank you, Shane and family for helping make our home cleaner and prettier. From all of us at the office:

*Mii Gwech!!*

### Did you know.....??

The front receptionist, Samantha, is able to make appointments, print out paperwork like six month review forms and insurance renewal forms, make copies for your case worker, take in any application for program assistance, and look up simple information on your case like your medical ID number for Badgercare Plus. Just call the main office phone and she will be happy to assist you.

With a new day, comes new strength
