UCSF AI Seminar Series "Implementation and Evaluation of AI in Real-World Clinical Settings"

Friday, January 12, 2024
12:00 – 1:00pm
Mission Hall, MH-1401/1402

Webinar link

Artificial Intelligence (AI) Readiness at UCSF: Current State and Future Directions

The inaugural session of this seminar series will feature a panel discussion on the state of clinical AI at UCSF and review the school's progress in each aspect of being an AI-ready hospital, including data accessibility, infrastructure for model deployment and evaluation, and governance/organizational structures.
