

2024 North American Trail Sector Survey

American Trails recently announced the launch of its inaugural 2024 North American Trail Sector Survey, in partnership with Trans Canada Trail. The results of the survey will inform the trail community across North America about the current health of trails, trail systems, and trail organizations, identify pressure points and obstacles for growth, and arm advocates with the data they need to make the case for trails in their region. Survey responses will be tabulated and distributed to all respondents and made available on the American Trails and Trans Canada Trail websites.

If you manage, build, maintain, or plan trails, please take the half hour necessary to complete this important online survey. Responses are due by March 31, 2024 (by 4:59pm Eastern).
