

***CALLING ALL EQUESTRIANS
Urgent Help Needed!***

Dear Equine Community,

At the Equine Land Conservation Resource (ELCR), we are dedicated to safeguarding the essence of equestrian communities. Our mission is clear: to protect and conserve private lands for horses and horse-related activities on a national scale.

Right now, we need your assistance in a crucial research effort. ELCR is urgently investigating cases where municipalities and local governments have adopted unfriendly equine zoning laws, resulting in a significant decline in the equestrian character of these communities.

We're turning to the equine community for your firsthand knowledge and experience. If you are aware of any instances in your community or elsewhere where rezoning and land loss have dramatically impacted the equestrian character of the area, we want to hear from you.

To share your information, please reply to:
elcraadmin@elcr.org

Your insights are invaluable and will play a pivotal role in our ongoing mission to protect and preserve equestrian landscapes. By sharing your knowledge, you can help us advocate for better land use policies that support equestrian activities.

Your contribution will make a significant difference. Together, we can work towards preserving the equestrian way of life for generations to come.

Thank you for being a part of this vital endeavor.
Sincerely,

Holley Groshek
Executive Director
Equine Land Conservation Resource

P.S. Your input is crucial in helping us protect the equestrian character of communities nationwide. Please share this alert with fellow horse enthusiasts and let's make an impact together!
