

HELP- HELP- HELP -- WE NEED YOUR HELP

Welcome to April! We are getting ready for the Upper Midwest Recyclers Convention & Trade Show on April 26 at Badger Motors in Wisconsin Rapids.

The biggest problem we are having in WI is the out of state wholesale dealers coming into our state and buying vehicles without having the legal license and permits. If you are a hunter or fisherman, you know you have to buy a license if you go to a different state. There are hundreds of people from out of state buying salvage and used cars with only having a storage unit. They do not have to have business and property like we do to run our business, along with all the state laws we must follow.

We are having our CARS lobbyist, LKQ, and DOT join us at the convention to try to get the Government in Madison to put a stop to this.

We need the help of ALL the TIER-ONE LICENCE HOLDERS in Wisconsin to help save our most important asset. We have to keep our businesses running. PLEASE contact all your fellow salvage dealers to join is in Wisconsin Rapids to correct this problem. They do not have to be CARS members to attend. The Registration is only \$75.00 per person. We need to organize and show everyone that the salvage dealers in the state want to keep our business running profitably.

Thank You

Sandy Dumke | CARS of WI Ex. Sec.
