

August Garden Tasks

- Continue to keep staking and tying up larger plants that need it – like tomatoes, raspberries, dahlias, peas and cucumbers
- Cut some flowers and bring them inside to brighten your interior spaces
- Keep trees, shrubs and grass well watered
- Water and fertilize your annuals
- Sow a second crop of beans, carrots, radishes and any other crop that you can get a second go at
- Sow fall crops like cabbage and kale
- Spread mulch in super dry areas of your beds and gardens for moisture retention
