

HARD HAT COURAGE

INFORMATIONAL BREAKFAST

April 22, 2026

8:00 am

Ohio Valley Construction Employers Council / Project Best
21 Armory Drive
Wheeling, WV 26003

The Construction Industry has one of the highest rates of suicide in the U.S. compared to other industries. AFSP is committed to saving lives by making it safe to talk about mental health – every day, on the jobsite – by equipping construction craft and industry professionals, as well as their companies, with the tools to take care of themselves and each other.

This Informational Breakfast is a 2-hour meeting facilitated by AFSP volunteers that provides partner organizations with resources and programs created for suicide prevention in the Construction Industry. During this breakfast, we will also introduce *Talk Saves Lives: An Introduction to Suicide Prevention in the Construction Industry*.

After attending, participants will be able to:

- Describe the impact of suicide in the construction industry
- Recognize suicide warning signs
- Provide examples of how to approach someone you're concerned about
- List ways to seek and offer support and resources for yourself and others
- Understand the next steps on how you can bring all of these resources to your workplace.
