

SAINT PATRICK
HIGH SCHOOL

HEALTHCARE PATHWAY

PREPARING THE NEXT GENERATION
OF HEALTHCARE PROFESSIONALS

FAITH • SERVICE • SCIENCE • LEADERSHIP

WHY HEALTHCARE?

86,000+
PROJECTED PHYSICIAN SHORTAGE BY 2036[1]

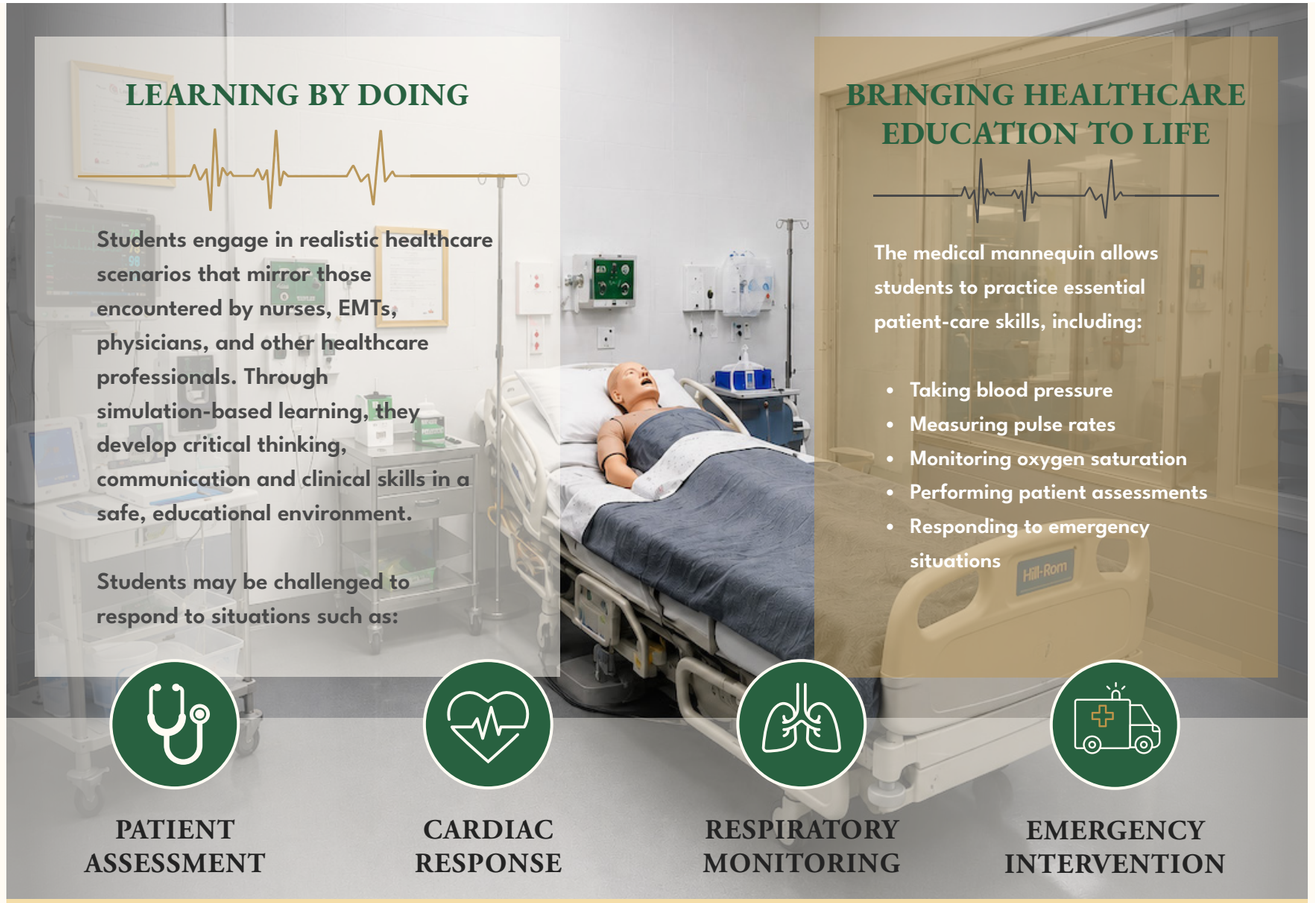

189,000+
NEW REGISTERED NURSES needed annually[2]

19,000+
ANNUAL EMT OPENINGS projected through 2034[3]

WHY IT MATTERS

Healthcare is one of the fastest-growing and most essential industries in the nation. By introducing students to healthcare careers in high school, Saint Patrick can help young men make informed decisions about their futures while developing valuable skills that serve both their communities and their careers.

LEARNING BY DOING

Students engage in realistic healthcare scenarios that mirror those encountered by nurses, EMTs, physicians, and other healthcare professionals. Through simulation-based learning, they develop critical thinking, communication and clinical skills in a safe, educational environment.

Students may be challenged to respond to situations such as:

- PATIENT ASSESSMENT
- CARDIAC RESPONSE
- RESPIRATORY MONITORING
- EMERGENCY INTERVENTION

BRINGING HEALTHCARE EDUCATION TO LIFE

The medical mannequin allows students to practice essential patient-care skills, including:

- Taking blood pressure
- Measuring pulse rates
- Monitoring oxygen saturation
- Performing patient assessments
- Responding to emergency situations

> **At Saint Patrick, we're creating opportunities for students to explore healthcare careers while still in high school - gaining hands-on experience, building real-world skills and discovering pathways that can shape what comes next. Our goal is to give every Shamrock the opportunity to find his path and graduate prepared to take the next step with confidence.** — John Harrington, Principal

HEALTHCARE PATHWAY

YEAR ONE
- Anatomy & Physiology
- Medical Simulation
- Clinical Skills

YEAR TWO
Healthcare Certifications
- Emergency Medical Technician
- Certified Nursing Assistant (CNA)
- EKG Technician

FUTURE
- College Partnerships
- Industry Credentials
- Career Exploration

HEALTHCARE BEYOND THE CLASSROOM

A Saint Patrick education gives students the opportunity to:

- Explore healthcare careers while still in high school
- Discover future opportunities for healthcare certifications
- Gain hands-on experience through experiential learning
- Connect classroom learning to college and career pathways
- Build practical skills in a healthcare-focused CTE Pathway
- Graduate better prepared for college, career and what comes next

SAINT PATRICK HIGH SCHOOL

INVESTING IN THE NEXT GENERATION OF HEALTHCARE PROFESSIONALS

Saint Patrick High School prepares young men for success beyond graduation by giving them opportunities to explore their interests, discover potential careers and build real-world skills while still in high school. Through our innovative Career and Technical Education (CTE) pathways, students gain hands-on experience that connects classroom learning to college, career and life beyond Saint Patrick.

Our newest healthcare-focused pathway will bring those opportunities into an exciting and growing field. Through advanced medical simulation technology and hands-on academic programming, students will be able to explore healthcare careers, develop practical skills and gain valuable experience that can help shape their path after graduation.

CAREER & TECHNICAL EDUCATION PATHWAYS

- Art & Communication
- Finance & Business Services
- Human & Public Services
- Information Technology
- Manufacturing, Engineering, Technology & Trades
- Healthcare Pathway (NEW)
