

Looking for options for Health, Dental or Vision Insurance coverage?

Check out the offerings from the PSATS Insurance and Retirement Trust

We all know how quickly time passes. Soon enough, we will be heading into the fourth quarter and a very busy renewal season for many authorities. With insurance carriers already projecting significant renewal increases across both the small group and individual marketplaces, now is the ideal time to consider PSATS insurance offerings. Our health plans have consistently outperformed overall medical and prescription (Rx) trends and inflation, helping municipalities better manage rising costs. In addition, our ancillary products - dental and vision insurance continue to deliver strong rate stability alongside rich, competitive benefits.

PSATS also offers exceptional flexibility, with streamlined underwriting and minimal eligibility scrutiny compared to many major carriers. This allows authorities to access high-quality coverage options without unnecessary administrative burden.

While the insurance industry continues to move away from servicing small employers, the PSATS Insurance Trust specializes in those markets. Does your authority have one or just a few employees? No problem! Our Insurance Trust will insure as few as one employee through its group plans (with certain requirements). Don't wait until the last minute; now is the time to start exploring solutions that provide both value and stability heading into the upcoming renewal cycle.

Our insurance rates renew on a calendar year basis. We anticipate receiving our 2027 rates by late October. Stay tuned! We will announce the availability of our new 2027 rates once they become available.

Going to the annual PMAA conference in September? Please stop by our booth in the exhibit hall and say hello!
