PMAA Endorsed Program

PSATS Trustees Health Insurance Program

2027 rates now available

Healthcare costs continue to challenge municipal budgets, but PMAA members have options. Despite continued increases in healthcare costs nationwide, the PSATS Trustees Health Insurance Program has maintained competitive, member-focused coverage with minimal rate increases that remain well below many small group and ACA market benchmarks for the 13th consecutive year.

For 2027, members of the Insurance Trust will benefit from enhanced coverage features including $0 copays on eligible generic prescriptions, $0 Teladoc visits, increased vision allowances, and continued predictable out-of-pocket costs designed to protect both employees and municipal budgets. In addition to medical coverage, the Health Trust continues to offer comprehensive dental and vision coverages providing Pennsylvania authorities with a stable, cost-effective benefits program that emphasizes value, sustainability, and exceptional member service. Our vision plans offer annual allowances for both frames and contact lenses within the same year, which is one of the strongest vision benefits you will find in the market along with multi-year rate stability.

Please contact Harry Krot at 717.763.0930, ext. 143, or by email at hkrot@psats.org to get more details on the lines of coverage that we offer and their respective rates.
