- IoT including SCADA & AMI
- Natural Gas & Combined Heat and Power
- Smart Buildings & Building Optimisation
- Smart Contracts Solutions
- Smart Grid & Microgrid Enabling Technologies
- Solar & Wind Energy
- Thermal Energy & Building Performance
- Virtual Power Plants

Core Criteria

- Game changing technology or business model.
- Capacity to take on new business and meet business lead obligations that may be generated at the forum.
- Exceptional presentation skills.

Selection Process

- Company selections are made on an ongoing basis.
- Advisory Board members typically refer the project team to the CEO of a company of interest.
- The Decentralised Energy Forum project team then briefs the company of interest on the opportunity to present at the forum and provides them with an application form.
- The company provides a verbal commitment of its interest to present and submits a completed application form, which must be submitted before the company can formally be selected.
- Presenting companies will then receive a formal offer letter from the Decentralised Energy Forum team.

Registration Costs

- **Presenter:** \$1,095.00 CDN
- **Each Additional Delegate:** \$695.00 CDN
- Once a company has received their formal offer letter, registration must be completed within one week in order to confirm acceptance.

Logistics

- The Decentralised Energy Forum is a showcase opportunity for exceptional energy tech companies - presenting companies need not to be actively fundraising in order to present.
- Detailed program, timings, and logistical details will be forwarded upon company selection.
- Company presentations are to be a maximum of 10 minutes.
- PowerPoint slides must be submitted in advance.
- Presenting Companies have the opportunity to set up an exhibitor booth at the forum.
