

MYTHOLOGY

Summer Reading Assignment

Reading: Read Edith Hamilton's *Mythology*, including the "Introduction to Classical Mythology."

Activity: Please create a library of index cards which includes the names of the gods, goddesses, and heroes who you encounter as you read *Mythology*. Write notes, clues, and connections to other characters on your cards. These characters will appear frequently in next year's readings. You will use your card library as a reference and study tool throughout the year, so it will be worth your while to be thorough and detailed!

Thought: In *Mythology* you will be exposed to a worldview greatly affected by polytheism. We believe in one God (monotheism) in three persons (the Trinity). In what ways is our one God superior to the many gods and goddesses described in your reading? Be prepared to discuss and support your answers scripturally.
