

MGC D2B continued:

I have learned some of the history of their club. The interests and the strength of the club within the community. In going to these two clubs, I was able to sit with members and hear their story. I love this part of being a DD. It is such a wonderful perk. I have a few more meetings on the books and will reach out to others soon.

Our fall D2B meeting is already underway with the planning. I know we will have a great turnout and I am sure people will be looking forward to what Meridian Garden Club has in store for us.
