

Mason County Garden Club 100th Continued:

All our Projects were highlighted on trifold boards, membership books were displayed, and scrapbooks were available for guests to look at. A Power Point Program was on a loop sharing the history of Mason County Garden Club with information provided from the Mason County Historical Archives.

Begun in 1926 Mason County Garden Club had both men and women members, dues were 10 cents, and meetings were monthly, mostly visiting each other's gardens. Since that time, additional community activities have evolved. As was pointed out in each of the proclamations read by the dignitaries; MCGC participates in the Petunia Parade, White Pine Village, Downtown planters for summer and winter interest, Leveaux Park, Cups of Cheer, Garden of the Month (June thru Sept), Spring Plant Exchange and Fall Plant Sale, U Dig It Community Garden, Biennial Flower Show, Garden Walk, an annual scholarship is awarded to a student interested in horticultural studies, and a Youth poster competition with prizes awarded. There is an activity for anyone to participate in, and every member chooses one or more committees to serve on.

Community members are welcome to attend our monthly programs and meetings are held at the United Methodist Church on Bryant Rd. the fourth Thursday of the month March thru October.
