## **Information Item: Redistricting Update**

TO: School Board  
Trisha Kocanda, Superintendent

FROM: Brad Goldstein, CFO

February 25, 2020

This month's update includes an update on the village commitments related to tunnel improvements, safe routes and signage, new student registration for 2020-2021, and posting for new crossing guard position.

### **Tunnel "beautification"**

The Village is working with contractors to determine the cost and schedule for preparing the tunnels with a base coat in preparation for the students to design and paint small murals and create a gallery expedition as part of the beautification process.

### **Signage and Routes**

The Village has signage on order for the lot at Sunset and Green Bay for the New Trier lot that restricts right on red during school days and hours. It is anticipated that this will be in place by the end of February.

The District has received preliminary "Safe Routes to School" maps from the Village. We plan on reviewing this in early March. Any additional signage related to these routes will be determined in conjunction with the Village.

### **New Student Registration 2020-2021**

As of February 21, 2020, pre-registered kindergarten students for the 2020-2021 school year total 106. Existing families received an email from the District reminding them to register. Registration signs have been placed outside the elementary schools and District office to encourage all new families to the District to begin the registration process.

### **Crossing Guard**

The job description for Crossing Guard has been finalized and will be a full time position for the District. This will be posted in late March or early April.

### **Next Steps - March 2020**

- Finalize timeline with Village for work commitments, review signage and safe routes provided by the Village, and discuss tunnel preparation on March 11th.
