## I ♥ Art: Watercolor Art

Even if you don't have any watercolor paint at home, you can make beautiful watercolor paintings.

### **Supplies:**

watercolor paper, washable markers, spray bottle with water

### **Note:**

If you don't have watercolor paper, you can use plain paper.

### **Instructions:**

1. Draw on the paper with the markers. You can make any design you want.
2. Once you are finished drawing, spray your paper with water. If you are not using watercolor paper, be careful not to over-spray the paper.
3. The marker colors will start to run and bleed.
4. Leave the paper until it is completely dry.
5. Once dry, enjoy the beautiful artwork you have created!
