

Setting up Nomorobo on Your Comcast Account

Nomorobo is a service that automatically blocks telemarketing calls from robo-callers. If you use XFINITY Voice for your home telephone, you can set up the service at no cost. One of our team members is currently using the system, and has found it to be very effective. It's very simple to set up:

- Log in to your comcast account
- Click on the telephone icon at the top of the page
- Look for the Block Telemarketers with Nomorobo
