

# *We Cover the Shore*

Because we are headquartered in Rehoboth, people often assume that we only build new homes in the Rehoboth area. The truth is that Turnstone is active throughout eastern Sussex County.

At this very moment we are building or designing new luxury homes in:

- Broadkill beach (2 homes)
- Downtown Rehoboth (3 homes)
- Rehoboth Beach Yacht & Country Club
- Milton
- Downtown Lewes
- Angola Neck area
- Woods on Herring Creek
- Dewey Beach
- North Shores.
- West of Fenwick Island (2 homes)

That's why we say, "We cover the shore" – from Broadkill to Fenwick and around the inland bays.

It takes more than trucks to build successfully in a 300-square mile area. It takes a deep senior management team, capable project managers and supervisors, a stable pool of trade partners, great technology and financial strength.

Trust Turnstone to build your new luxury home – anywhere on the Delaware shore!
