Welcome to the Aristoi Advocacy Newsletter!

Quarterly, you will receive updates about our advocacy efforts, resources to check out, and calls to action as we head into the 90th Legislative Session.

What is Advocacy?

Advocacy is showing and telling our story as charter parents and staff to the people who make decisions. In our case, we are building relationships with local and state elected officials who may or may not know about public charter schools. There are multitude of misconceptions regarding charter schools, and it is our responsibility as advocates to share research based data with everyone we meet.

How Do We Do this?

*We engage with elected officials across all aisles and show them how awesome our public charter school is! We share stories that they will remember. We do not disbarge other schools; we highlight our students and the awesome opportunities being a charter school has afforded those who needed it. This work cannot be done alone as we are **all advocates**.*

Looking forward to what this year has to bring!

Thank you Katy Councilmember Ward B - Mike Meilhs and Katy Councilmember at Large - Paul Folis for meeting our 5 & 6th grade Student Council.
