

Calling all Building Professionals! Your help is needed to inspire the future workforce!

Aloha,

Your help is needed for Waipahu High School's virtual CRASH (College Readiness and Academic Success Hawaii) program. We need working professionals/industry representatives to provide a two-minute overview of their profession to help high school students envision their life after high school through different career pathways.

If you are willing and able, please create a short (2-minute) video of yourself talking about your profession. Please follow these prompts:

- What is your name and your job/career title?
- What company/organization do you work at?
- Briefly tell us what you do and why you enjoy your job. (You may show your workplace or tools that you use for work).
- What advice do you have for high school students who are interested in your career?
- Share a success quote that has helped to guide you in your work? (Students will submit your quote as proof that they watched your video).

Please complete this google form and upload your video at this link:
