

# 23RD INTERNATIONAL CONFERENCE ON AQUATIC INVASIVE SPECIES

## SAVE THE DATES

May 12-16, 2024

Halifax Convention Centre  
Halifax, Nova Scotia, Canada

## Meeting challenges with innovation

The International Conference on Aquatic Invasive Species (ICAIS) is the **most comprehensive international forum** to address new and emerging issues in freshwater, marine and estuarine environments.

ICAIS provides an international platform for the **presentation of research to advance global** action to limit the introduction and spread of AIS worldwide and **serves as a catalyst for international collaboration** on research and management projects.

Through knowledge sharing and networking, **ICAIS connects those involved in science and policy with practitioners and industry professionals** on the front lines of AIS prevention and management.

- ◆ Daily international keynote speakers
- ◆ Panel discussions
- ◆ Programs specific to students and early career professionals
- ◆ Opportunities for networking
- ◆ Specialist workshops

### Organizers

**Sarah Stewart-Clark**, Dalhousie University

**Jason LeBlanc**, Nova Scotia Department of Fisheries and Aquaculture

**Deborah Sparks**, ICAIS Secretariat
