

How to Update Your Chapel Listing on Episcopalmaine.org

Please look at your chapel's listing on the diocesan website. Anything inaccurate or missing? Good news! Anyone at your organization can submit these changes.

Here's how to make updates:

- 1) Go to episcopalmaine.org and clicking on "Find a Church"
- 2) Switch to the "Listing" tab of the map you find there
- 3) Find and click on your chapel in the list
- 4) Click on the red "More Details" button
- 5) Click on "Update this Place" located just under your chapel name

A form will open that allows you to fill in a variety of information fields.

Be sure to update your chapel's worship times and include whether or not you are live streaming this service by selecting "live stream" in addition to English in the "Worship Language" field. This will make it easy for others to select "live stream" from the language menu of the search bar and join your service!

Once an administrator has approved suggested changes, they will appear on the updated map!
