

Council Member

**TODD M. TURNER**

PRINCE GEORGE'S COUNTY COUNCIL, DISTRICT 4

<http://pgccouncil.us/District4>

In 2015 Governor Larry Hogan, Jr., through the Maryland Transit Administration (MTA), sought \$28.7 million from the Federal Railroad Administration to conduct an Environmental Impact Study (EIS), under the National Environmental Policy Act (NEPA), to review alternative routes, the environmental, economic and other impacts for the Superconducting Maglev (SCMAGLEV) train between Washington, DC and Baltimore, MD.

On October 13, 2017, MDOT reduced the number of alternatives for the EIS/NEPA to three, each of which impact Bowie, Glenn Dale and Greenbelt in my District. As your Council Member, I share your concerns about the potential impact this project will have on the County. I strongly urge you to reach out to the Federal, State and Project officials listed below to express your position on this matter. To view the proposed alternatives, register for updates and to comment, please visit the Project website at [www.bwmaglev.info](http://www.bwmaglev.info). I will continue to monitor this process and work with our Federal and State representatives so our voices are heard on this project.

## Federal
