

JOURNEY CONTINUATION PACKAGE™ MAGNET® VERSION

The journey to excellence never ends! The time between designations is the time to develop your plan for your redesignation. CHCM is committed to helping organizations remain focused on their continued journey—94% of our clients return to us for redesignation or are referrals from our current Magnet® clients. Our Journey Continuation Package includes four days of consulting time provided in the following deliverables:

Journey Debrief

Using reflective practice and appreciative inquiry we debrief your journey with your team. This half-day debrief provides the foundation for your successful redesignation plan.

Out with the Old, In with the New Manual Workshop

Historically, ANCC has published a new Magnet® manual every 4 years. This 1-day workshop prepares your team to address the new manual requirements and proactively tackle other opportunities for improvement.

Redesignation Data Requirements Assessment

Manual changes mean changes to Nurse Sensitive Indicator (NSI) data requirements. This assessment looks at where your organization's NSI data is in comparison to the new requirements, available options for submission to national databases, as well as options when there is no national database.

Strategic Planning for Redesignation

This consultant led planning day utilizes the insight gained from the debrief, workshop, and assessment to create the strategic plan to ensure your redesignation journey is focused on what needs to occur to ensure success. We will identify key milestones, "must haves," and develop a timeline for your continued journey to excellence.

Raising the Bar on Shared/ Professional Governance

Consultant support to identify and address opportunities for improvement, strengthening and deepening your current shared/professional governance structure

Virtual Mentoring

As organizations continue their ongoing journey to excellence there will always be questions that arise. Our virtual mentoring offers customized support that can save you hours of time trying to address issues you are unsure of.

Let us help you be successful!
