

NURSE SURVEY PREPARATION™ PATHWAY TO EXCELLENCE® PATHWAY TO EXCELLENCE IN LONG-TERM CARE® VERSION

There are many demands placed on an organization as they prepare for the last phase of their journey. Organizations that focus on communication and understanding related to the PTE®/PTE-LTC® Nurse Survey requirements have increased participation in and completion of their survey. To ensure you experience a successful ANCC Nurse Survey, we offer the Nurse Survey Preparation package which includes following deliverables:

Nurse Survey Preparation

Foci #1: Nurse Leaders

The nurse leader role in the Nurse Survey is critical. He/she are the advocates for staff completion of the survey. In the course of this advocacy, they are asked many questions about the survey and must be agile and prepared to respond to these. We support nurse leaders through a half-day interactive session that focuses on their specific role in Nurse Survey preparation.

Foci #2: Nurse Survey Champions

Surveys can be intimidating to those completing them. To support the nurse leaders, one of our consultants will support your “staff voice” team as they explore their role in Nurse Survey preparation. We do this through a half-day interactive session that explores options for educational materials and activities to foster survey engagement and enhance completion rates.

Resource Bundle

We take the stress out of the development of nurse survey education materials by developing a bundle of customizable templates for your team to use. The Resource Bundle includes Talking Point Papers, an FAQ sheet, as well as sample communications from the CNO and nurse leaders.
