

MAP Test Announcement

On Thursday, September 22, we will be following an adjusted schedule with an extended advisement. Students will need to bring their computer to their advisement class on these dates.

Period	Adjusted Schedule
1	8:20 - 9:03
2	9:08 - 9:51
ADV.	9:56 - 11:31
3	11:36 - 12:19
4	12:24 - 1:07
5	1:12 - 1:55
6	2:00 - 2:43
7	2:48 - 3:30

Your child will take a MAP® Growth™ test from NWEA® (Reading) on a computer or tablet during their advisement class. MAP Growth scores help teachers check student performance by measuring achievement and growth. Teachers can use results to tailor classroom lessons and set goals for students.

MAP Growth tests are unique, and it adapts to your child’s responses to measure your child’s skill level. If your child answers a question correctly, the next question is more challenging. If they answer incorrectly, the next one is easier. These results will provide a more complete picture of what your child knows and is ready to learn—whether it is on, above, or below their grade level.

Since MAP Growth tests provide immediate and accurate information about your child’s learning, it’s easy for teachers to identify students with similar scores that are generally ready for instruction in similar skills and topics, and then plan instruction accordingly.

MAP Growth reports also provide typical growth data for students who are in the same grade, subject and have the same starting performance level.

Please encourage your student to do their best on each of these assessments. The staff at Milton will need the data from the assessment to be as accurate as possible.

We are truly excited to focus on your child’s individual growth and achievement. For more information about MAP Growth, visit [NWEA.org/familytoolkit](https://www.nwea.org/familytoolkit). This website is a valuable resource and videos are available that will help you to understand what the MAP Growth test is and how it can be used to help your student.
