

SGM Logistics

Lisa Reynolds Bailey is the proud owner of SGM Logistics located in Pearl, Miss. The firm has been providing trucking and logistics services to its customers since 2019. SGM Logistics is skilled in handling various cargo types and focuses on providing a full-scale transportation service to its customers. The firm has experienced drivers who are dedicated to transporting goods efficiently and safely so that time is not lost in transition. SGM is also certified as a Woman Owned Small Business (WOSB) and is a vendor for FEMA.

Bailey has been interested in the trucking industry since high school. However, she worked in the property management field for about 22 years. "I knew from an early age that I wanted to be an entrepreneur. I did my research and obtained my CDL license. My husband, Johnny Bailey got his CDL license as well and we have been working as a team, promoting a family-owned business," explained Bailey.

SGM Logistics has worked with companies such as RXO, J.B. Hunt, DBI Logistics, and Spotlight, Inc. The firm also hauled dirt for Washington, Inc. in Dallas, Texas. Bailey is all about making connections and building long lasting work relationships. Her ability to network and family-oriented approach is what keeps her business going.

As an entrepreneur, Bailey wants to use her company as a platform to help others. She enjoys sharing information and partnering with other entrepreneurs. In addition, Bailey strives to help build her clients and employees. "I know that my company's greatness comes from the people I have working with me daily. From warehouse staff to contracted drivers, I lookout for all my crew," said Bailey. SGM Logistics is differentiated by its ability to effectively work out complex logistics as well as offer services as an umbrella allowing the firm to implement a turn-key approach to any facility it is servicing. SGM Logistics also leverages innovative technology for real-time tracking, communication, and reporting. Customers have visibility into every step of their shipments.

As a small business owner, Bailey leaves a word of advice to other DBEs. "It's important to be passionate about your work, have integrity, and always be willing to research and learn new things as it pertains to your industry," said Bailey. For all your logistics needs contact Lisa at 601-760-9224 or send correspondence to lr@sgmlogistics.com.

A MISSISSIPPI SUCCESS STORY

Cornerstone Engineering

Cornerstone Engineering is owned and operated by Maurika McKenzie, Sr., P.E., and located in Clinton, Miss. The firm also has offices in Alabama and Louisiana and provides general civil engineering, water resources engineering (drinking water, wastewater, and stormwater design), structural engineering, geotechnical engineering, aviation planning and design, construction material testing, and solid waste management planning services to federal, state, and local governments, developers, water associations, architect/engineers, and industrial entities.

McKenzie is a resourceful and creative thinker, ambitious and eager to take on new complex challenges in the engineering and construction arena. This has provided him the opportunity to work on a range of projects with various entities such as the Jackson Municipal Airport Authority (JMAA), Clarke County Airport, and OB Curtis Water Treatment Plant just to name a few. Although Cornerstone Engineering has worked on about 12 large projects in the Jackson area, one of the firm's largest jobs to date has included a 10-million-dollar J.H. Fewell Water Treatment Plant project. Currently, the firm is serving as the engineer on several projects in the Delta area. In reference to future projects, Cornerstone Engineering anticipates work with the Clarke County Airport.

Building a successful business is not an easy task. McKenzie strives to be a better businessman by participating in leadership and business development training. "An investment in bettering myself is an investment in my company. I'm always looking to hone my skills and learn new strategies and approaches to my industry," explained McKenzie.

Along with self-development, McKenzie is focused on hiring employees that fit his company culture and values. He stressed the importance of loyalty, respect, integrity, and teamwork. McKenzie looks for team members who are go getters. "Essentially, my intent is to duplicate myself through the individuals I handpick to be on my team," he explained.

McKenzie is not only an entrepreneur but a mentor as well. He recently partnered with a local high school to bring students to his office to see what a typical day looks like for an engineer. "Introducing students to various industries at an early age can be impactful. Who knows, one of the students may be a future employee," said McKenzie.

As a business owner, McKenzie shared what he does to maintain a successful business. He emphasized managing cashflow, providing a quality service/product, and getting feedback from the customer and adjusting accordingly. For all your engineering needs contact Maurika at 601-941-9599 or send correspondence to info@cornerstoneengllc.com.

OSHA Safety Tip of the Month!

You are at risk from *falling* objects when you are beneath cranes, scaffolds, etc., or where overhead work is being performed. There is a danger from *flying* objects when power tools, or activities like pushing, pulling, or prying, may cause objects to become airborne. Injuries can range from minor abrasions to concussions, blindness, or death.

How Do I Avoid Hazards?

General

- Wear hardhats.
- Stack materials to prevent sliding, falling, or collapse.
- Use protective measures such as toe boards and debris nets.

Power Tools, Machines, etc.

- Use safety glasses, goggles, face shields, etc., where machines or tools may cause flying particles.
- Inspect tools, such as saws and lathes, to ensure that protective guards are in good condition.
- Make sure you are trained in the proper operation of powder actuated tools.

Cranes and Hoists

- Avoid working underneath loads being moved.
- Barricade hazard areas and post warning signs.
- Inspect cranes and hoists to see that all components, such as wire rope, lifting hooks, chains, etc., are in good condition.
- Do not exceed lifting capacity of cranes and hoists.

Overhead Work

- Secure tools and materials to prevent them from falling on people below.
- Barricade hazard areas and post warning signs.
- Use toe boards, screens, or guardrails on scaffolds to prevent falling objects, *or*,
- Use debris nets, catch platforms, or canopies to catch or deflect falling objects.

Compressed Air

- Reduce compressed air used for cleaning to 30 psi, and only use with appropriate guarding and protective equipment.
- Never clean clothing with compressed air.

The Bid Bond, if used, shall be payable to the Owner. Bid security shall be submitted with each bid in the amount of 5 percent of the bid amount. No bids may be withdrawn for a period of 90 days after opening of bids. Owner reserves the right to reject any and all bids and to waive informalities and irregularities. The owner reserves the right to postpone action and final decision for a period of up to ninety (90) days. Bidders' Questions: Architect will provide responses at Pre-Bid Conference to bidders' questions received up to two business days prior to Conference. Successful bidder shall begin the Work on receipt of the Notice to Proceed and shall complete the Work within the Contract completion date of July 1, 2024. Bidders must be properly licensed under the laws governing their respective trades and be able to obtain insurance and bonds required for the Work. A Performance Bond, separate Labor and Material Payment Bond, and Insurance in a form acceptable to Owner will be required of the successful Bidder.

Plan Holders:

HIGHLIGHTED PROJECTS FOR THE MONTH OF MARCH 2024

Preapproved List of Vendors for Security Services

Bid Date: 3/21/2024

Bid Time: 11:00:00 AM

Project Location: 501 North West Street, Suite 1300
Jackson, Mississippi 39201

Bids To: Mississippi Department of Finance and Administration
Office of Personal Service Contract Review
501 North West Street, Suite 1300
Jackson, Mississippi 39201

Architect/Engineer:

Scope of Work:

OPSCR is seeking bids for uniformed security guards in four separate categories of service: (1) unarmed foot patrol, (2) armed foot patrol, (3) unarmed vehicular patrol, and (4) armed vehicular patrol. Foot patrol services may include the use of motorized and non-motorized means of transportation as provided by the Contracting Agency (such as golf cart, Segway, or bicycle, etc.). Vehicular patrols will be conducted in a vehicle provided by the contractor. Services to be provided include safeguarding the agency employees and a large range of facilities (some facilities could be potential terrorist targets). Examples of agency facilities include, but are not limited to, the following: office buildings, hospitals, schools, warehouses, water reservoirs, and communications networks, etc. Each agency may have more than one location and in different regions of the state. Some agencies may require 24/7 on-site security presence, others need coverage only during regular business hours; still others may only require security services on weekends or during unique short-term events (i.e. specific threat, job fairs, art exhibits, etc.). Examples of services to be provided include, but are not limited to, the following: allowing only authorized persons access to the building(s); maintaining an activity log (electronic or paper) in accordance with Contracting Agency requirements (such as accepting UPS, FedEx, or other package deliveries); monitoring and investigating all internal alarm systems (such as fire); escorting agency employees to conduct agency banking business; checking to ensure all entrances and exits are secure at the end of the day; deterring acts of vandalism, graffiti, burglary, trespassing, and other hazardous, criminal, or unauthorized activities; conducting security patrols in accordance with the routes and schedules established in the post orders; responding to calls regarding fires, bomb threats, or any other emergency situations; roving patrol of property to detect and prevent criminal or unauthorized activities; and monitoring the employee parking area which may require a security guard to be stationed outside. The selected preapproved contractors must have a field supervisor on-call twenty-four (24) hours a day to deal with any security issues which arise. Additional services may be required by the Contracting Agency.

Plan Holders:

HIGHLIGHTED PROJECTS FOR THE MONTH OF MARCH 2024

Rankin County, Mississippi Request for Qualifications for Engineering Services

Bid Date: 4/3/2024
Bid Time: 2:00:00 PM
Project Location: Brandon, MS 39042
Bids To: Rankin County Board of
Supervisors, 211 East Government Street, Suite A, Brandon, Mississippi 39042
Architect/Engineer:
Scope of Work:

All proposals must be submitted in a sealed envelope marked on the outside of the envelope as 'Response to RFP, Rankin County DRA Project'. Rankin County reserves the right to accept or reject any proposal.

The Engineer will be responsible for performing all engineering services through project closeout in accordance with federal, state and local laws, regulations and policies. The scope of work includes but is not limited to the following:

- 1) prepare plans and specifications, 2) distribute bid documents, 3) assist in bid opening and prepare bid tabulation, 4) assist in the execution of construction contracts, 5) hold pre-construction conference, and
 - 6) perform construction inspection including periodic reports to the County and approve all payment requests.
- Rankin County is an Equal Opportunity Employer. The County encourages Minority-owned Business Enterprises (MBEs) and Woman-owned Business Enterprises (WBEs) to submit proposals. The County also encourages Section 3 eligible businesses to submit proposals. Section 3 of the Housing and Urban Development Act of 1968, as amended (12 U.S.C. 17010) requires, to the greatest extent feasible, that the County and its contractors that participate in the above referenced Program give opportunities for job training and employment to lower income residents of Rankin County. Section 3 also requires that contracts for work in connection with the Section 3 area be awarded to Section 3 eligible business concerns.

All proposals must be submitted in a sealed envelope and marked with the following language: "Proposal for DRA Engineering Services." Proposals will be evaluated on the following factors: Qualifications (40 points), Experience (40 points) and Capacity for Performance (20 points). To be evaluated properly, the following must be addressed in detail:

Qualifications – List of qualifications of persons to be assigned to project; Experience - Information regarding the firm's experience and the projects previously undertaken, including the type and amount of grants awarded, the project activities, and the status of the projects; Capacity for Performance - Identify the number and title of staff assigned to provide services.

The County will designate a selection committee to evaluate each proposal. The selection committee may hold proposals for a period of not to exceed thirty (30) days for the purpose of reviewing the content of the proposals and investigating the qualifications of the firms and assigned individuals. The County reserves the right to reject any and/or all proposals.

Subject to DRA award(s) and the removal of all environmental conditions, the County will award a contract with the qualified individual or firm whose proposals has the highest number of cumulative points issued by the selection committee and determined to be the most advantageous to the County, price and other factors considered. The contract will include scope and extent of work and other essential requirements. An individual contract will include scope and extent of work and other essential requirements. An individual contract will be executed for each awarded project, and the contract will be on a fixed price basis. The County has the authority to terminate the selection at any time.

HIGHLIGHTED PROJECTS FOR THE MONTH OF MARCH 2024

Campus Sidewalk Improvements

Bid Date: 4/9/2024
Bid Time: 3:00:00 PM
Project Location: LOWNDES COUNTY, MISSISSIPPI
Bids To: College Operations Center; Administration Office, 8731 South Frontage Road, Mayhew, Mississippi, 39753
Architect/Engineer: WGK Engineers, 204 West Leake Street, Clinton, MS 39056
Scope of Work:

The East Mississippi Community College, Lowndes County, Mississippi, will receive bids for the construction of new campus sidewalk improvements with landscaping, lighting, drainage improvements, brick pavers, and seating areas for a total project length of 0.353 miles, Federal Aid Project No. STP0044-00(041)LPA/108819-701000 no later than 3:00 p.m., Local Time, Tuesday, April 9, 2024, at the College Operations Center located at 8731 South Frontage Road, Mayhew, Mississippi. All bids so received will be publicly opened and read aloud. The work shall consist essentially of the following items:

Construction of new brick paver pedestrian walkway, lighting, striping, concrete sidewalk, drainage improvements, landscaping and irrigation. All other related items of work required to complete the project as shown and specified in the Contract Documents.

The above general outline of features of the work does not in any way limit the responsibility of the contractor to perform all work and furnish all plant, labor, equipment and materials required by the specifications and the drawings referred to therein.

The attention of bidders is directed to the Contract Provisions governing selection and employment of labor. Minimum wage rates for Federal-Aid projects have been predetermined by the Secretary of Labor and are subject to Public Law 87-581 Work Hours Act of 1962, as set forth in the Contract Provisions. The East Mississippi Community College of Lowndes County hereby notifies all Bidders that it will affirmatively insure that in any contract entered into pursuant to this advertisement, disadvantaged and women's business enterprises will be afforded the full opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, sex, age, disability, religion or national origin in consideration for an award. The award of this contract will be contingent upon the Contractor satisfying the DBE/WBE requirements.
