

I think there are many things that “Make America Great.” For example, the history of this country, our democracy, and our religious freedom set us apart from other countries. America is mainly known for its freedom, but there are many other things that make America a great country. Our country has many things that differ from other countries, and that is what makes America a terrific country. America is great because it is a unique country and is unlike any other country in the world.

The history of our country makes America great. Unlike other countries, America had to fight for their freedom. Also, many objects we use in our daily lives had been originally made in America. Many famous people from history had had a role in the history of America. Our country has a unique history that is very different than the history of other countries.

Our country is great because of our democracy. If the president wanted to make a rule, a lot of other people would have to agree for it to become a rule. America is great because there is not just one person in charge. Also, the people in charge make very smart decisions. Like the rules about how anyone can vote for whoever they want.

America is great because of our religious freedom. America does not have any rules that tell you what religion you have to be. In America, you have the ability to be whatever religion you want to be. No one is legally allowed to hurt you or not allow you to do something because of your religion. Everyone is able to choose whatever religion they want to believe and participate in.

America is a great country and an amazing place to live for a lot of reasons. America is a free country and anyone can live here. America is a great country because of its history, of its democracy, and because of its religious freedom. America is an amazing country to live in and I hope it continues to be.
