The Alter Girls' Soccer team is hosting its eighth annual advanced training clinic. The "Knights Academy" is open to any female or male soccer player entering third grade in the fall of 2020 and older (up to incoming Alter freshmen). The camp will be held on Alter's turf field and will be run by the Varsity and Junior Varsity coaching staff and current players. Each attendee can expect to improve the player's technical ability and tactical understanding of the game and work on speed and conditioning to introduce the player to the physical demands of playing at the high school level. Goal keepers will receive individual and specialized instruction. All players will receive a free camp t-shirt for attending.
